

Hatchbuck API Documentation

- SSL is required for all connections, HTTP connectivity will result in an error
- Security is handled via an API key, we have enabled API access for your accounts and you may generate an API key under Account Settings (top right corner) -> Web API
- When you POST or PUT you must use a media type of application/json otherwise it will return unsupported media type
- On this page you're also able to view the API logs which is a history of every request that was made, either read or write.
- The final section of the page is table lookup keys. Usage of these is not required but recommended. The best example is Tags. If you have a tag named MyTag and you want to add that tag to a contact. You may either add it by name "MyTag" or by id <lots of characters here>. The reason we offer the id version in addition to the text version is because if you rename the tag the id will still work, but if you rename MyTag to MyOldTag in the system and continue to use the API to apply "MyTag" you will now have two tags in circulation: "MyOldTag" which was the renamed "MyTag" in addition to the new tag called "MyTag" thats now being sent via the API's. We do not currently have APIs to query all of these data elements programmatically so we have created this routine for you to find and use IDs as needed.

Specific notes on each API action

- Search Contact
 - o We do not support many fields for search contact, this is intentional because the intent of this first release is focused on getting data into Hatchbuck. Our only unique key we employ is email address so we have provided a search mechanism for email as well as name if you do not have an email.
- Add Contact
 - o Email address and contact status are required fields. While we do provide the ability to create contacts without email addresses via our UI we are not supporting this within API's. Since an error will be thrown if an email address already exists you need to search for a contact by email and see if there is an existing record before deciding whether to POST a new contact or PUT a contact update.
- Update contact
 - o We allow the usage of the contact id or an email address for contact updates
- Get contact tags
 - o This is a convenience method, the same data is also returned in Search Contact
- Add contact tags
 - o A convenience method for adding tags to a contact. More functionality is available through get/update contact if you'd like to directly manipulate the tag scores
- Get campaigns
 - o Convenience method
- Start/stop campaign
 - o You should use this for starting or stopping campaigns, do not use update contact to start a campaign. I do not believe an error is thrown if you try to do this yet but we will throw an error in the future if you attempt to modify campaigns through the update contact API

Search Contact

Request Header

Content-Type : application/json; charset=utf8

URL: https://api.hatchbuck.com/api/v1/contact/search?api_key=

Request Type:

POST

Search Criteria:

- **Mandatory fields:** It is mandatory to provide one of the following fields to search the Contact.
- **contactId**
"contactId": "MTYzSzBIMlVzQldzU2Fwb3BNVjVCSkhTSDloMkw4UHpWRjlqQlIJT0dXZzE1"
- **firstName**
"firstName": "Suryapal"
- **lastName**
"lastName": "Solanki"
- **emails**
"emails": [
 { "address": "suryapals1@yopmail.com" },
 { "address": "suryapal1.chetu@yopmail.com" }
]

Request format:

```
{  
  "contactId":  
  "Tk1rWS1vNTVERTJ5OUZELVpsaEp5SUhsV1p5RUplU3FndDQwU29udHV5STE1",  
  "firstName": "Suryapal",  
  "lastName": "Solanki",  
  "emails": [  
    {  
      "address": "suryapals@yopmail.com"  
    }  
  ]  
}
```

Response format:

```
[  
  {  
    "contactId": "SUZRNTICdnZad19VaGR2T0p0ek83ZEpJdU41dVgzc3IBLWFacWxnOXhkMDE1",

Add Contact

URL: https://api.hatchbuck.com/api/v1/contact?api_key=

Request Type:

POST

Add Criteria:

- **Mandatory fields:** It is mandatory to provide Email Address and Contact Status of Contact for Add operation.

- **Email Address**

a.No Email address must be already registered with Hatchbuck.

b.Each address must be provided with type or typeId

```

"emails": [
    {
        "address": "sameerb12@widgets.com",
        "type": "Work"
    },
    {
        "address": "sameerb12.home@gmail.com",
        "typeId": "eTINQVNINkozejNRS3RnZlk0cj2MHVpRVN0NINFZFpq3VxU0VzTXExVTE1"
    }
]

```

- **Contact Status**

a.Contact Status can be specified using correct Status Name as

```
"status":{"name": "Customer"}
```

Or Contact status Id as follows:

```
"status":{"id":
```

```
"TUtxaFRINUJDVm1VNGtiRnFZRloxE4xZXloZHQ3Q0lPWtZPNGhJN0xfMDE1"}
```

- **Default fields:**

- **Sales Rep**

a.User corresponding to API Key will be considered as Sales Rep

- **Other fields:**

- **Title**

a.Syntax to specify Contact Title is as follows:

```
"title":"Software Developer"
```

- **Company**

- a. Company can be specified using corresponding Company Id as:

```
"companyId":"YmJzVlpld2gzNUVMekVZR1FfSFldkdWcFYtZVNqbkZNT3ZxdktPVkJGUTE1"
```

OR the company name as:

```
"company": "Hatchback"
```

- **Street Address**

- a. All the addresses specified must contain Street, City, Country, State, ZIP and (type or typeId).

- b. Country and Type must be used from list in the API Key list for Country and Address Type

```
"addresses": [{
  "street": "Office Street No 1",
  "city": "NOIDA",
  "country": "India",
  "state": "UP",
  "zip": "111000",
  "type": "Work"
}]
```

- **Time Zone**

```
"timezone": "India Standard Time"
```

- **Temperature**

- a. Temperature can be specified using corresponding Temperature Id as:

```
"temperature":{"id":"UIJNbDIsmIdWTUZVb0Q0eTZuV0tHSmpQTKhNTHQ0YIIKYTViVDZNRGIXODE1"}
```

- **Phone**

- a. Phone numbers must be specified with corresponding type or type Id.

```
"phones": [
{
  "number": "123456789",

"typeId": "aHZ5bDdrT0tLVXpzLVFBTVQakhQWTgtZWpsWnRwd2o5R0FpMIh5WXJ1ODE1"
}, {
  "number": "987654354",
  "type": "Home"
}]
```

- **Social Network**

- a. Social Networking address must be specified with corresponding type or type Id.

```
"socialNetworks": [
{
  "address": "sameer@fb.com",
  "type": "facebook"
}, {
```

```

    "address": "sameer@ln.com",
    "typeId": "Q2dJTVQ1NW9UYzhJeUd4ckl0dWFWNWkpLOUxyTXVGUFVjQlZYbVM2ZlI4bzE1"
  }
}

```

- **Instant Messaging**

a. Instant Messaging must be specified with corresponding type or type Id.

```

"instantMessaging": [ {
  "address": "sameer@sameer.com",
  "type": "skype"
}, {
  "address": "sameer@rss.com",

  "typeId": "VFNVTFJ6UVEtbWNHREY4TEFUYVNP1F5OUJFbWJKRC1NRU5qSWUyX0kyMDE1"
} ]

```

- **Website**

a. Multiple websites can be specified as follows:

```

"website": [{"websiteUrl": "sameer.com1"}, {"websiteUrl": "sammeer.com2"}]

```

- **Source**

a. Source can be added using corresponding id of Lead Source as:

```

    "sourceId": "SzV3TlpxM0FmRVhmSVNkNEZnZHFLXpSVnQzTmd5Q3o5SHcydjBpbE5nczE1"

```

- **Custom Fields**

a. Value for Custom fields can be specified with name or id of custom fields as follows:

```

"customFields": [
  {
    "name": "Anniversary",
    "value": "Yes"
  }, {
    "value": "No",
    "id": "MEI6aFhhWmVzTlpZbnFpTFQ0Q2czb2hDd0pzQkhVNFJqcVVORnhkbExRSTE1"
  }
]

```

Request format:

```

{
  "firstName": "Sameer12",
  "lastName": "Batra12",
  "title": "Developer",
  "emails": [ {
    "address": "sameerb14@widgets.com",
    "type": "Work"

Update Contact

URL: https://api.hatchbuck.com/api/v1/contact?api_key=

Request Type:

PUT

Update Criteria:

- **Mandatory fields:** It is mandatory to provide Email Address or Contact Id of Contact for Update operation.
- **Contact Id**
 - a. Contact Id can be specified as follows:

"contactId":

"SkIMV05ZNxhGbWRmMEoyOUFmSURETIJVMFRqTXZGUTJQb040bFRZY0Z3QTE1"

- **Email Address**

- a. To update the existing Email address, include Id of the Email that needs to be updated.
- b. To add new Email include the Email address with type and typeId and no id.
- c. Each address must be provided with type or typeId

"emails": [

{

"id":

"aTZzLXZkTmw4ZGQ4MGMtcXZ4bmZ1aDRtNDZaajU0cUV6RXBxRmNIVk9fMDE1",

"address": "sameerb14@yopmail.com",

"type": "Work",

"typeId":

"VmhlQU1pZVJSUFFJSjZfMHRmT1laUmwtT0FMNW9hbnBuZHD2Q1JTdE0tYzE1"

```

    },
    {
      "address": "sameerb14new.home@yopmail.com",
      "type": "Home",
      "typeId":
        "LUNCRVRmNm5mZm94LU1UZVR5NW9kYjE2R1UxajRTSTdkWTZfeHJwRm5fVTE1"
    }
  ]

```

- **Other fields:**

- **Title**

a. Syntax to update Contact Title is as follows:

```
"title" : "Software Developer"
```

- **Company**

a. Company to be updated can be specified using corresponding Company Id as:

```
"companyId": "YmJzVlpld2gzNUVMekVZR1FfSFItddkdwCYtZVNqbkZNT3ZxdkTPVkJGUTE1"
```

OR the company name as:

```
"company" : "Hatchback"
```

- **Street Address**

a. To update existing Address specify id of the corresponding address that needs to be updated.

b. All the addresses specified must contain Street, City, Country, State, ZIP and (type or typeId).

c. Country and Type must be used from list in the API Key list for Country and Address Type

```

"addresses": [{
  "street": "Office Street No 1",
  "city": "NOIDA",
  "country": "India",
  "state": "UP",
  "zip": "111000",
  "type": "Work"
}]

```

- **Time Zone**

a. To update Time Zone specify the new time zone in string format.

```
"timezone": "India Standard Time"
```

- **Temperature**

a. Existing temperature can be updated by specified corresponding Temperature Id as:

```
"temperature":{"id":"RjR4ejVUTIIUVGNHNmVROXJBRVdqRklQODdLRzhqZy1iNV8tTm03Rjc5STE1"}
```

- **Phone**

- To update existing Phone number specify the id of the number that is to be updated
- Phone numbers must be specified with corresponding type or type Id.
- If typeId is specified that typeId will be considered for new type otherwise type specified will be considered for new type.

```
"phones": [  
  {  
    "id":  
    "cHRiT015dm5ocXM2WGg2NzRqV0w1d0NITUIJVU1URXlycURaUXZnUDNSbzE1",  
    "number": "123456782",  
    "type": "Work"  
  },  
  {  
    "id":  
    "N1VPsko1MW1XTklyazRyOEF2T0dRQXFkTHM4V2cyVU52RnV4VjBpWW1XODE1",  
    "number": "987654354",  
    "type": "Home",  
    "typeId":  
    "czJVdUgydEVKcEhhRjc0d1J2dEJNOWxzLVBOZUxZY3VrZ1lqbHNnUGgzazE1"  
  }  
]
```

- **Social Network**

- To update existing Social Networking address specify the id of the number that is to be updated.
- Social Networking address must be specified with corresponding type or type Id.
- If typeId is specified that typeId will be considered for new type otherwise type specified will be considered.

```
"socialNetworks": [  
  {  
    "id":  
    "RF9IS0pscTU0SnBoeVVJU29qRVBxYUYxcmRLRVpCR0ttakttVFhnZzJqWTE1",  
    "address": "sameer1@fb.com",  
    "type": "Facebook"  
  },  
  {  
    "id":  
    "SGRpdnZ2bUkxVzByYmNTUnJFQ1VIZEpwaTZVd0dTY1lZR25oMG9MZjdNbzE1",  
    "address": "sameer@ln.com",  
    "type": "LinkedIn",  
    "typeId":  
    "Q2dJTVQ1NW9UYzhJeUd4ckl0dWFWNWkpLOUxyTXVGUFVjQlZYbVM2ZlI4bzE1"  
  }  
]
```

- **Instant Messaging**

- To update existing Instant Messaging specify the id of the number that is to be updated.
- Messaging address must be specified with corresponding type or type Id.
- If typeId is specified that typeId will be considered for new type otherwise type specified will be considered.

```
"instantMessaging": [
  {
    "id":
    "dmUzOGZyRlk2OTZHSWVWTDBCRG42clhGZ0RpdDhpR2VCa2F1ZmJMSFNRzZE1",
    "address": "sameerMsg@sameer.com",
    "typeId":
    "OVU4dkdiMUJmeEo4bWNteDZfUUXEQi1jMGFBcC11N3RjZURlbDJqX0kwMDE1"
  },
  {
    "id":
    "X3pTZE91Y09iQU1lbGNIY19pdThqV2REYm1TNVRscGdyMkt3RzIzbnFXZzE1",
    "address": "sameer@rss.com",
    "type": "AOL IM"
  },
  {
    "id":
    "Nk8yaURZQ0ptZzZKdWdMU0wwbmcwQTRGTjNhSldJVVNBnRnFxoWdLVFh2TTE1",
    "address": "sameer@sameer.com",
    "type": "Messenger",
    "typeId":
    "OVU4dkdiMUJmeEo4bWNteDZfUUXEQi1jMGFBcC11N3RjZURlbDJqX0kwMDE1"
  }
]
```

- **Website**

- To update existing website specify id with webSiteUrl that needs to be updated as follows:

```
"website": [ {
  "websiteUrl": "sameer.yopmail.com",
  "id":
  "WWcwZDMtNmhsdEgwbzZWN3VSb2s3ZTRxTTctTmxpdDFRQzdEclJkaTdFUTE1"
}, {
  "websiteUrl": "sammeer.com2"
}]
```

- **Source**

- Source can be updated using corresponding id of Lead Source as:

```
"sourceId": "SzV3TlpxM0FmRVhmSVNkNEZnZHFLXpSVnQzTmd5Q3o5SHcydjBpbE5nczE1"
```

- **Custom Fields**

- a. Value for Custom fields can be specified with name or id of custom fields as follows:

```
"customFields": [
  {
    "name": "Anniversary",
    "value": "Yes"
  }, {
    "value": "No",
    "id":
    "MEI6aFhhWmVzTlpZbnFpTFQ0Q2czb2hDd0pzQkhVNFJqcVVORnhkbExRSTE1"
  }
]
```

Request format:

```
{
  "firstName": "Sameer12",
  "lastName": "Batra12",
  "title": "Developer",
  "emails": [
    {
      "address": "sameerb12@widgets.com",

Get Tags of Contact

URL : https://api.hatchbuck.com/api/v1/contact/CONTACT_ID/Tags?api_key=

Or

https://api.hatchbuck.com/api/v1/contact/EMAIL_ADDRESS/Tags?api_key=

Request Type:

GET

Search Criteria:

- **Mandatory fields:** It is mandatory to provide correct Contact Id in URL to get associated Tag's detail.

Response Format:

```

[{"name": "TestAPITag1",
  "score": 2,
  "id": "dkYxazFqMi1VZkpaN190aDgxU2RGdy1LazJIY3INWFZLVkZYT1paSmVWczE1"
},{
  "name": "TestAPITag2",
  "score": 3,
  "id": "dkYxazFqMi1VLkpaN190aDgxU2RGdy1LazJIY3INWFZLVkZYT1paSmVWczE1"
}]

```

Add Tags to Contact

URL : https://api.hatchbuck.com/api/v1/contact/CONTACT_ID/Tags?api_key=

Or

https://api.hatchbuck.com/api/v1/contact/EMAIL_ADDRESS/Tags?api_key=

Request Type:

POST

Add Criteria:

- User needs to specify either id or name of the Tag that needs to be added to the Contact.

Request format:

```
[[
  {
    "id": "cEhGUjRNM3ZkaGZsdjU2UzNsNGlVTU9DWTdKYlhzQTVtRmZPcUFpbXVuczE1"
  }, {
    "name": "Blue"
  }, {
    "name": "Arabic",
    "id": "cEhGUjRNM3ZkaGZsdjU2UzNsNGlVTU9DWTdKYlhzQTVtRmZPcUFpbXVuczE1"
  }
]]
```

Delete Tags from Contact

URL : https://api.hatchbuck.com/api/v1/contact/CONTACT_ID/Tags?api_key=

Or

https://api.hatchbuck.com/api/v1/contact/EMAIL_ADDRESS/Tags?api_key=

Request Type:

DELETE

Delete Criteria:

- User needs to specify either id or name of the Tag that needs to be deleted for the Contact.

Request format:

```
[ {
  "name": "SameerTag001",
  "id": "QXNLaXZCSHV4Skk5ei1ydzRBaTVtbV8xYmFEYjZCQnE2OTRFUHctMVdpdzE1"

},
{
  "name": "SameerTag003"
}
]]
```

Get Campaign of Contact

URL : https://api.hatchbuck.com/api/v1/contact/CONTACT_ID/Campaign?api_key=

Or

https://api.hatchbuck.com/api/v1/contact/EMAIL_ADDRESS/Campaign?api_key=

Request Type:

GET

Response format:

```
[ {  
  "name": "24Jan2014",  
  "step": 0,  
  "id": "ZFpBbjJJa3J1SW5xbGxhdGFSOURMYWVqYVRXX3dVbVEteVpHa3ZJVDExODE1"  
}]
```

Start Campaign for Contact

URL : https://api.hatchbuck.com/api/v1/contact/CONTACT_ID/Campaign?api_key=

Or

https://api.hatchbuck.com/api/v1/contact/EMAIL_ADDRESS/Campaign?api_key=

Request Type:

POST

Start Criteria:

- Request needs to specify either id or name of the Campaign that needs to be started for the Contact.

Request format:

```
[ {  
  "name": "CampaignName",  
  "id": "QXNLaXZCSHV4Skk5ei1ydzRBaTVtbV8xYmFEYjZCQnE2OTRFUHctMVdpdzE1"  
}, {  
  "id": "S3VuTm1feEZmXzA2YXNIS1N6Wk9HeG9RTS1veWVQY25MNjhobmtlZ1lrazE1"  
}, {  
  "name": " CampaignName123"  
}]
```

Stop Campaign for Contact

URL : https://api.hatchbuck.com/api/v1/contact/CONTACT_ID/Campaign?api_key=

Or

https://api.hatchbuck.com/api/v1/contact/EMAIL_ADDRESS/Campaign?api_key=

Request Type:

DELETE

Stop Criteria:

- Request needs to specify either id or name of the Campaign that needs to be stoped for the Contact.

Request format:

```
[
  {
    "name": "CampaignName",
    "id": "QXNLaXZCSHV4Skk5ei1ydzRBaTVtbV8xYmFEYjZCQnE2OTRFUHctMVdpdzE1"
